

BIZZTRACKER

**STAY FOCUSED
ON THE BIG PICTURE**

**PROJECT PORTFOLIO MANAGEMENT
MADE EASY**

UNDERSTAND.

DECIDE.

MANAGE.

B RING STRATEGY TO LIFE

Many organizations have difficulties to bring their strategies into action. Project portfolio management is key to making this translation.

Bizztracker is a cloud based application that supports management with the project portfolio process. It provides a pragmatic framework and valuable reports that give the information required to steer.

PORTFOLIO FOCUS

Stay focused on the big picture. Portfolio and senior managers require a consolidated view of what is going on and how ongoing initiatives are progressing. A common pitfall is to end up getting lost in too many project details while the big picture is out of sight.

Bizztracker ensures you stay focused and in control.

START SMALL, THINK BIG

Invest in flexible tooling. Tooling should be used as a support for the project portfolio management process. With bizztracker full flexibility is provided to match the needs of both companies just getting started as those which have already an advanced portfolio process in place.

BIZZTRACKER IN A NUTSHELL

BUSINESS INTELLIGENCE TO SUPPORT PROJECT
PORTFOLIO MANAGEMENT

U **NDERSTAND WHAT IS GOING ON**

By centralizing all initiatives and projects, information is available at one place. Adding company specific perspectives, strategic scoring and financial information gives all the ingredients for viewing the portfolio through different lenses.

D **ECIDE WHAT TO PLAN**

The out-of-the-box strategic reports combined with flexible views provide the business intelligence that managers need to make solid portfolio decisions. Dashboards can be customised, defaulted by preferred values to facilitate the decision making process.

M **ANAGE THE PORTFOLIO**

Monitoring the execution of the approved projects in the portfolio is key to successful delivery. Updates on status, planning and financials are grouped on portfolio level to be able to see the consolidated status. Simple, straightforward and powerful to manage any project portfolio.
