

## PORTFOLIO MANAGEMENT MADE EASY

BUSINESS INTELLIGENCE FOR STRATEGIC PORTFOLIO PLANNING AND OPERATIONAL PORTFOLIO EXECUTION

## CONFIGURATION OUT OF THE BOX

- Quick and easy company configuration
- Personalized Dashboards
- Custom company fields
- Flexible reporting with custom filters
- No implementation consultants needed

### FINANCIALS

Define your financial parameters and set up the different types of financial information you want to log on project and portfolio level.

### STRATEGIC OBJECTIVES

Include the strategic objectives in your environment to score your projects and evaluate alignment with your strategic success.

### COMPANY CUSTOM FIELDS

Create custom fields to add your company perspectives, segments or labels to analyse projects and portfolios from multiple angles.

### RESOURCES

Configure critical resources to evaluate the resource demand from a set of projects with the resource availability.

### DOCUMENT TYPES

Define document types that need to be uploaded to a project to track document completeness on project level.

### FLEXIBLE DASHBOARDS

Decide what you want to see on the summary pages in order to match your specific business need.

## WHY CHOOSE US

- STRAIGHTFORWARD** Advanced and easy to use portfolio management functionality
- CONFIGURABLE** No need for implementation consultants
- EXPERIENCED** Extensive portfolio management experience in different industries
- SUPPORTIVE** Support system 24/7 with rapid response times
